				31		

Diagram illustrating a 4x7 grid of numbers representing a month. The grid is labeled with days of the week: Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, and Saturday. The numbers 1 through 31 are placed in the grid. The grid is divided into several shaded regions: a top-left region (Sunday, Monday, Tuesday) with diagonal lines, a top-right region (Friday, Saturday) with diagonal lines, a middle-left region (Wednesday, Thursday) with diagonal lines, a middle-right region (Monday, Tuesday) with diagonal lines, and a bottom region (Sunday, Monday, Tuesday) with diagonal lines. A curved arrow labeled '40' points to the top-left shaded region. Another curved arrow labeled '50' points to the top-right shaded region. A curved arrow labeled '60' points to the bottom region.
